SIEGE ENDED.

Santiago Capitulates Without a Final Struggle.

OUR DIPLOMACY WINS

Shafter Made Toral See Futility of Resistance.

TERMS OF SURRENDER.

The Spanish Troops to Be Transported to Spain.

OFFICERS TO RETAIN SIDE ARMS.

The Second City of Cuba, With Its Fine Harbor, Its Fortifications and Five Thousand Square Miles of Territory Turned Over to Us.

WASHINGTON, July 15.—"Santiago surrendered at 3" was the significant official announcement that reached the president at six minutes past 3 o'clock yesterday afternoon.

It came in a dispatch from a signal service officer at Playa del Este and told the result of the meeting of the capitulating commissioners in the most brief and concise form of any of the numerous dispatches laid before the president during the day.

The dispatch was well ahead of the official message from General Shafter. Santiago time is 55 minutes ahead of Washington, which accounts for the quick receipt of the result, the commissioners not meeting until half past 2 o'clock. A few minutes after this message had come to the president the following was received by Chief Signal Officer Greely:

"Playa del Este, July 14. 'General Greely, Washington: 'Santiago has surrendered.

"JONES." The receipt of these dispatches cleared up doubts which had existed all day as to the Spanish answer to the American ultimatum of "unconditional surrender." From the first it seemed apparent that General Toral was anxious to surrender, but was trying to secure concessions.

The first definite news reached the war department about 10 o'clock. It was contained in a dispatch from General Shafter, saying that General Toral had asked that commissioners be appointed to arrange terms of surrender. Toral having already appointed his commissioners.

President McKinley, Secretary Alger and Adjutant General Corbin held a conference at the White House.

General Shafter was instructed to carry out the orders last sent him—namely, to secure the surrender of Santiago by noon or renew the attack upon the city.

After the sending of the dispatch to General Shafter there was a period of feverish suspense until half past 2 o'clock, when the adjutant general received the following from Playa del Este:

"Adjutant General, Washington: 'Have just returned from interview with General Toral.

"He agrees to surrender upon the basis of being returned to Spain.

"This proposition embraces all of eastern Cuba from Asseraderos on the south to Sagua on the north via Palma with practically the Fourth army corps.

"Commissioners meet this afternoon at half past 2 to definitely arrange the terms.

"W. R. SHAFTER, Major General."

The president was the first to be made acquainted with the action of the Spanish general, the dispatch making the announcement being sent direct to him, in accordance with previous instructions.

The president was alone in the private apartments of the White House conversing with Mrs. McKinley when the operator handed him the dispatch. He quickly read it aloud to Mrs. McKinley and then immediately sent for Secretary Alger and Adjutant General Corbin.

Secretary Alger returned to the war department from the White House shortly before 3 o'clock. He expressed his gratification at the latest reports from General Shafter, but apparently desired to take a conservative view of the matter as being of such grave importance that it must not be regarded as settled finally and absolutely until actually accomplished in its details and said it yet remained to be known exactly what the terms of surrender were.

He said he had telegraphed General Shafter inquiring as to the exact terms. So far as the transportation of Spanish troops back to Spain went, that he said, was fully understood and entirely approved. In general he regarded the situation as highly satisfactory.

A little later came the report that the city had been formally surrendered to General Shafter.

A late dispatch from Playa del Este says: General Toral named as commissioners on the part of Spain Mr. Robert

Mason, British vice consul; General Tolon and his own (Toral's) chief of staff. Shafter and General Miles named General Wheeler, General Lawton and Captain Miley of General Shafter's staff.

The statement that the Spanish proposition embraces all eastern Cuba from Asseraderos to Sagua is important in that it shows the surrender to embrace all the harbor and contiguous territory of Santiago.

It does not include Holguin and Manzanillo, where the Spaniards are reported to have considerable bodies of soldiers, as these places are to the west of the surrendered zone.

Except the Spanish force at Santiago, numbering about 10,000 men, Mr. Allen, assistant secretary, says there are no Spanish troops within the surrendered zone, as it has been overrun by Garcia's forces. The Spanish garrisons are at Manzanillo and Holguin, to the west of the surrendered zone. Mr. Allen says these Spanish garrisons do not exceed 6,000 men. This, he says, is General Garcia's estimate. Mr. Allen left Santiago only last Saturday. At that time, he says, there were two suspicious cases, thought to be yellow fever, in the hospital at Siboney.

The navy department had not heard up to the close of office hours to what extent the American fleet was participating in the Spanish surrender. With Santiago in our hands the way will be clear for Admiral Sampson's fleet to enter the harbor and proceed up to the wharfs as soon as the torpedoes and mines at the harbor entrance are removed. The fortifications of Morro Castle, Socapa, Cayo Smith and others are included in the surrendered zone. The possession of these fine fortresses, particularly Morro Castle, will afford valuable garrioon points for a large number of men. The terms under which these strongholds are surrendered are not yet known in detail, but it is regarded as likely that their big guns pass with the surrender. While the fleet will soon be free to move up to Santiago city, some doubt is entertained in naval circles whether any good could be accomplished by such a move, as it might subject some of our sailors to the contagion existing within the city.

The plan of the war department for returning the surrendered army of General Toral to Spain will not necessitate the use of American vessels. It is the purpose of the department to ask for proposals from all steamship companies which desire to compete for transporting the Spanish troops to Spain, and the most advantageous bid will be accepted. The advices of General Shafter state that the number of Spanish prisoners will be between 12,000 and 15,000.

The territory surrendered by General Toral includes about one-third of the province of Santiago de Cuba. The western line, as described by General Shafter, begins at Asseraderos, a point on the southern Cuban coast about 25 miles west of the city of Santiago de Cuba, and runs almost due north 50 miles to Dos Palmas, thence northeast to the city of Sagua de Panama, on the northern coast. It comprises something like 5,000 square miles, with a population exceeding 135,000 when the country is in its normal state. It includes the important cities of Santiago de Cuba, Guantanamo, Sagua de Panama and Baracoa. It is exceedingly rich in minerals, sugar and coffee. The large iron and copper mines at Juraguá, Baiquiri and vicinity are owned by American companies. In the Guantanamo district are the extensive sugar plantations of Soledad, Esperanza, Los Canos, Santa Cecilia and others.

Baracoa carried on an extensive fruit trade with the United States.

Wilson's Troops Not to Embark.

CHARLESTON, July 15.—Late Wednesday night General Wilson received orders not to embark the troops under his command here for Santiago. Much of the baggage of the Second and Third Wisconsin regiments had been loaded, and all of this had to come off the ships. Yesterday afternoon General Wilson went out to Summerville to inspect a camping ground there, but the water supply did not suit him. At headquarters every one is entirely at sea as to what is to be done with the troops here, now that Santiago has fallen. The chances are that they will be quartered in the city for some time to come.

Loading of Transports Stopped.

TAMPA, Fla., July 15.—Orders have been received here to stop the loading of all transports Two batteries of heavy artillery, Company K of the Seventh and Company K of the Second have joined General Rogers' command to replace the First battalion, First Florida regiment, which has been attached to that camp. The Florida men will rejoin their regiment.

European Intervention Mooted Again.

PARIS, July 15.—The Matin has received from its London correspondent, who has unusual sources of information, a dispatch in which he says the European chancelleries are now discussing the question of the eventual intervention of the powers in the Philippine islands. The ambassadors at Berlin, the correspondent adds, have advised their governments respecting Germany's line of policy, which seems quite settled. Germany would prefer the maintenance of the statu quo, but if as a consequence of the war Spanish sovereignty disappeared, American sovereignty must not be its successor. An international agreement, The Matin's correspondent further asserts, will be established, and the powers interested in the islands would each be called on to protect its own interests. The correspondent adds:

"This is the logical outcome of the Monroe doctrine, the principle of which will be employed by Europe in order to protect itself against American interference, and unless appearances are deceptive Great Britain, in spite of the talk of Anglo-Saxon alliance, will do the same as the other powers."

German Insults.

LONDON, July 15.—The Daily Mail's Washington correspondent cables that it

is "now known here that Admiral Dewey ordered the correspondents at Manila not to give the full story of the Irene incident for fear of arousing feeling in America which might lead to complications with Germany. When the full details transpire, it will be seen that the incident was more serious than it at first appeared to be. As soon as the American ships came on the scene of action in Subig bay the Irene slipped her cable, leaving her anchor in the bay. American Consul Wildman refused to say more than this, taking the same line of policy as Admiral Dewey. It is believed by those who know Admiral Dewey that on the arrival of the monitors Monterey and Monadnock he will insist upon his harbor regulations being carried out to the letter. The opinion among the foreigners at Manila is that the Americans will never forgive the Germans for their meddlesome attitude in the Philippines. It will not only hurt German trade with America, but will also effectually destroy all of Germany's chances of having any say or influence in the disposal of the Philippines if they should become American property."

The First New York's Destination.

WASHINGTON, July 15.—Army officials have been advised of the protest made to General Otis, at San Francisco, by Colonel Barber, commanding the First New York volunteer regiment, against the proposed assignment of that regiment to garrison duty at Honolulu. The colonel, however, has been informed that the intention of the president and the secretary of war is to keep the location of his command at the islands only temporarily and for a period approximating two months, after which it is to be sent to the Philippines.

FOREIGN VIEWS OF SURRENDER.

The London Press Thinks Spain Should Not Lose a Moment in Making Peace.

LONDON, July 15.—The Morning Post, commenting upon the surrender of Santiago, recalls the landing of the American forces at Baiquiri on June 22 and says that the operations can hardly be said to have been unduly prolonged. A result of great strategic importance has been attained without disproportionate exertion or sacrifice. It will open the eyes of the Spaniards to the fact that a continuance of the war is of no practical purpose and will cause the army in Havana to consider whether there is a reasonable prospect of their defense ending otherwise than did General Toral's. It is merely a question of time.

The Chronicle lauds President McKinley for conducting the war on humanitarian principles. The surrender, it says, strikingly justifies his action. Adverse critics henceforth will do well to remember that he is probably much better informed as to the possibilities and probabilities than they are.

For all practical purposes there only remains Havana. What happened in Santiago in July will happen there in October unless it previously surrenders. Peace negotiations cannot be much longer postponed. There is nothing to prevent the United States from dispatching a fleet to Spain if it thinks well, but there cannot now be any necessity for such action.

The Daily Mail says that the capitulation is disastrous to Spanish interests. Spain has thrown away another opportunity. So long as she held Santiago she could demand better terms, but as success after success crowns the American arms the conditions of peace will grow more onerous. The paper asks "Cannot Prime Minister Sagasta see that the true interest of Spain lies in an immediate termination of hostilities?"

The Standard says the departure of the United States from a peremptory line by allowing the surrender on conditions is encouraging as a symptom of a growing disposition to end hostilities in a manner which will not deal a superfluous blow to the pride of a weaker combatant. General Toral could have done nothing by prolonging his resistance. The defense was maintained with a courage and tenacity that will satisfy the most fastidious Castilian.

Monet's Surrender.

MADRID, July 15.—Captain General Augusti telegraphs as follows under date of July 10: "General Monet's column, unable to hold out at Macabore, left in three boats, towed by the gunboat Leyte, to seek re-enforcements. It was stopped by the Americans; but, aided by the current, it succeeded in reaching Estereros and Bulacan. There, however, the column was made prisoners by the insurgents. An official inquiry has been opened into the conduct of General Monet."

War Loan Subscriptions Closed.

WASHINGTON, July 15.—The subscription to the new 3 per cent war loan of \$200,000,000, which closed at 3 o'clock yesterday afternoon, including the offers made by syndicates, will amount to \$120,000,000, or six times the amount of the issue. The subscriptions represented by checks or other forms of payment, it is estimated, will aggregate about \$750,000,000, or 3 1/2 times the amount of the issue.

Bennington Leaves San Francisco.

SAN FRANCISCO, July 15.—The gunboat Bennington left her anchorage yesterday afternoon and proceeded down the bay amid the tooting of many whistles and the dipping of flags from the merchant vessels. It is generally supposed that she is going to Honolulu, but nothing positive as to her destination can be stated at this time.

Carranza Disappears.

MONTREAL, July 15.—Wednesday there were rumors that Lieutenant Carranza did not sail with Senor du B. It is stated positively that Carranza was impersonated by some unknown person and did not board the ship. Where Carranza is is a mystery.

Deep Frost.

NEW YORK SOLDIERS IN OMAHA

The hearty reception accorded the soldiers from the East—Thousands of citizens at the station—Refreshments in abundance for all—New York and Omaha Get Very Thick.

From the Omaha (Feb.) Dec. July 15.

Excepting only the memorable farewell given to the Omaha Guards and the Thurston Rifles, the most notable reception given by Omahans to any military companies or regiments was that at the station of the Union Pacific Railroad, yesterday, when the First Regiment of New York volunteer infantry passed through the city en route to San Francisco. Over 8,500 citizens, a large majority of whom were fair women, greeted the New Yorkers most cordially, served them with substantial refreshments, decorated them with flowers, and sent them wordward with many a heartfelt god-speed.

The programme arranged by Mayor Frank E. Moore and other loyal citizens was well carried out, and though it was late at night before the last section of the regiment passed through the city none of the soldiers were allowed to leave the station unattended of the good will of the people of the Exposition City. At the blowing of the big whistle of the Union Pacific shops and the calliope whistles of the Bemis Bag Company shortly before 4 o'clock, the citizens of all sections were notified that they had one hour to get to the railway station and welcome the eastern soldier boys. They responded numerously and quickly. They came from all sections of the city as the shrill blasts of the powerful whistles penetrated, and that included the streets of all sections and of all nations. From all quarters the people came, and hardly a one that did not bring some token of regard for the Empire State volunteers.

By 5 o'clock the crowd at Tenth and Mason streets had completely overrun both the railway stations and the extensive platforms between them. The early comers picked out points of vantage on the colonnades and balconies of the Burlington's new station. The east side of the Tenth street viaduct was soon crowded with an animated throng. The roof of the Union Pacific station was easily climbed, and the tops of freight cars and coaches standing about were also made to hold several hundred spectators.

It was just a few minutes before 6 o'clock when the lookout, seated away up on top of the Burlington station, cried down to the big throng of humanity below, "Here they come!" and a mighty shout went up to the lookout in acknowledgment of his tip. If there was a big crowd before, there was twice as large a one within two minutes. Whence they came it was hard to tell, but they rushed out pell-mell, all enthusiastic to extend a cordial greeting and a bite to eat to the eastern boys. The train was long one, and it was drawn into the station slowly in order to avoid accidents. There were ten tourist sleeping cars and one standard sleeper, all belonging to the Wagner Company, a freight car and a caboose, drawn by a big locomotive from the Omaha shops of the Union Pacific. Even the equipment of the train represented New York and Omaha.

Before the train pulled out New York and Omaha got very thick. Some of the New York boys took away the hatpins of the Omaha girls, while others wrote their names and addresses on the cuffs and collars of the best Omaha shirt waists. Cheers by the New Yorkers for Omaha, and return cheers by the Omahans for New York came thick and fast. So did the sandwiches and the cake, the lemonade and the pies, the cigars and smoking tobacco, and the pretty flowers, and the readable magazines and papers.

The system of the distribution of these favors had been well arranged. There were five heavily loaded trucks, each in charge of a selected committee of Omaha women. Fifteen minutes before the train arrived Mayor Moore explained just what each one was to do, so that when the military train rolled in every one who was to help serve the soldiers knew her part real well. The trucks were rolled over to the side of the train, and while the mayor and other gallant men went ahead to open the way the younger women followed with the refreshments and souvenirs throughout the train. Each party had two cars assigned to it, so all were served with but little confusion. From the privates who were standing guard over the equipment in the baggage car to Col. Barber and the other officers in the rear sleeper, all were liberally supplied. Emil Brandels was on hand to see the soldiers enjoy the 1,000 pies that the Boston store contributed, and happy Dave O'Brien chuckled as he saw the boys relish several gallons of his ice cream.

None of the young women were more cordially received by the soldiers as they passed through the cars than Misses Hester Taylor and Elizabeth Campbell; they were armed with several boxes of good cigars and were immensely popular all through the train.

Col. Barber, commanding the regiment, said the reception was the most remarkable his command had met with since leaving the shores of the Hudson. That he and his men appreciated the ovation they received was shown in their every word and action. From the Colonel down they were all an extremely fine looking body of men, and the proportion of young men seemed notably large. The Colonel was attired in a short sack coat with a few plain trimmings, and wore white duck trousers, which appeared so clean that some one said that he had put them on while the train was crossing the bridge. In the regiment were 1,319 men and fifty-seven

officers, a total of 1,376. In speaking to a reporter, one of the officers said: "We have had a pleasant trip so far. There has been no sickness or accident among the men. At several places on the line the people have turned out to receive us, but none of the receptions has even approached this. The Omaha people have certainly done us up as it is said we are going to Honolulu to do guard duty for a while, but we have received no orders to that effect yet, and probably will not until we reach San Francisco. Here goes the train. Good-bye."

WAWAYANDA.

The Farmers' Busy Season—A "Barn Warming" at Theodore Doane's—The Powder Mill Explosion—New York Eyes—Many Other Notes.

Correspondence ARGUS AND MERCURY.

—Farmers have about finished gathering their grain harvest. Some are done haying, but there are many others who have large crops of grain to cut, and it will take them many days to finish.

—One night last week, after the monster new barn owned by Theodore Doane was completed, it was resolved to have a "barn warming"—a lively jollification and an old-time dance. Well, the people had the enjoyment to their heart's content. About 150 persons assembled and had a glorious time, the dancers sticking to their fun until the "wee small hours of morn," when they departed to their homes.

—When the Lafin-Rand powder mills at Pompton Lakes, N. J., blew up, Tuesday, the concussion was plainly felt in this town. There was a heavy thud, not unlike thunder, and a tremor of the ground that seemed like an earthquake.

—J. Fletcher Vail and Mr. Demarest, of New York city, called on Wawayanda friends, a few days ago. They were on their way to Middletown to visit relatives, and were on their wheels. They had made the run from New York in about eight hours. The distance covered was about eighty miles.

—The apple crop in this section will be slim, this fall, owing to the unfavorable weather in the first part of May. Besides, the fruit will not be as fair as in some seasons. Hence apples will rule high in price.

—Unless we soon have copious rains the potato crop will be short, as the present dry and hot days are very injurious to their growth.

—Whoever likes to see a field of five acres of rye and big corn should look at J. H. Crawford's field.

—Dayton Saiton, who manages one of the farms of Theodore Doane, is a practical, up-to-date farmer. He is very busy just now in assisting his neighbors in gathering their harvests by using his reaping and binding machine, which does the binding into sheaves just as well as the old-fashioned hand process of our daddies.

THE STATE LEGISLATURE.

Metropolitan Election District Bill Passed Senate—Assembly Acts Today.

ALBANY, July 15.—The metropolitan election district bill was passed by the senate last night at 9:25 o'clock, after it had been debated continuously since 4 o'clock in the afternoon. A strictly party vote of 31 to 13 passed the measure, and it now goes to the assembly, where it will undoubtedly be passed today after a bitter fight, as the Republicans in the lower house have but a bare majority. When the senate reconvened at 4 o'clock yesterday afternoon the bill was taken under consideration at once. Senators Cantor, Grady and McCarren violently attacked the measure as a purely partisan plan to get control of the elections in New York city and ridiculed the idea that it was intended to secure an honest vote. The bill was defended by Senators Raines, Lexow, White and Brush in lengthy speeches. They declared that the action of the "practically Democratic" police board" in appointing Chief Devery and ousting McCullough from office was a notice from Tammany Hall that they intended to run the elections as they had formerly and that the bill was needed to secure an honest election in New York city. After the bill had been passed Senator Lexow introduced a bill to compel the appointment of the election inspectors nominated by the party organizations, and it was referred to the judicial committee.

Senator Higgins then introduced the bill appropriating \$18,000 for the expenses of the extraordinary session, and it was at once ordered to a third reading without objection. The senate then adjourned until 11 o'clock this morning.

The assembly reconvened at 10 o'clock last night, and the metropolitan election district bill, as passed by the senate earlier in the evening, was received. Leader Nixon gave notice that today he would move to suspend the rules, so that the bill could be immediately considered at that time. Two minutes after 10 the assembly adjourned until 10 o'clock a. m. today.

WEATHER INDICATIONS.

BY ASSOCIATED PRESS.

WASHINGTON, D. C., July 15.—Fair, showers in northern portion and cooler to-night; Saturday fair; northwesterly winds.

THE TEMPERATURE.

The following was the reading of the thermometer at 7 a. m., 12 m., 5 p. m., 9 p. m.:
7 a. m., 74°; 12 m., 80°; 5 p. m., 88°; 9 p. m., 82°.

A MASTER STROKE.

The sending of Toral's army back to Spain in American ships, flying the American flag, marks a new era in warfare, is an innovation that will startle the world. The far-reaching influence of this new departure is not to be measured; indeed, so fraught is it with possibilities that one may even go so far as to say that nothing in all history was so calculated as this to hasten the coming of the time when there shall be neither wars nor rumors of wars.

Viewed from any and all possible standpoints, it is a masterstroke. That it will cost less to send Toral and his cohorts to Spain than it would to have brought them here and quartered them here isn't worth figuring over. What is of the first consequence is that every soldier we in this way return to his home becomes a missionary for the spread of the American idea of how to conduct war—a sort of gospel agent, as it were, to diseducate the Spanish people of their preconceived ideas of America and Americans.

A war loan of \$100,000,000 was issued, Tuesday, by the Spanish government, but even the chance of spending this money does not seem to make Spanish statesmen eager to take office in a new cabinet. Perhaps, however, the explanation is that it is known that the returning ministry will take all the cash in sight, and leave only an empty treasury for their successors.

Assistant Attorney General Boyd has given an opinion that the language of the war revenue law clearly shows that it was intended that the stamps on shipping receipts should be provided and affixed by railroad and express companies, and not by the shipper. This is all right so far as it goes, but the same combination that was formed by the express company to saddle this tax on shippers can advance rate, and so by indirection accomplish the same result.

It is an open secret that Senator Platt has no heart or interest in Gov. Black's force bill. He is too shrewd a politician not to see the dangers of such legislation, and he is probably letting the Governor have his way, as the surest and easiest way of getting rid of a man who has become so puffed up that he thinks himself bigger than his creator. Senator Platt hasn't done much farming of late years, but he lived amid the rural scenes of Tioga county long enough to learn the truth of the old saying, "Give a calf rope enough and it will hang itself."

Neither in Gov. Black's message urging the passage of a State force bill nor in the speeches made by Republican Senators before the bill was "jammed through" the Senate, Thursday night, was a single valid reason for the enactment of such a measure given. None can be given for none exists. Even the most ignorant and hide-bound Republicans in the backwoods do not believe Gov. Black's ghost story that Tammany is plotting wholesale election frauds. The force bill finds favor with thick and thin Republicans simply because they hope that it will give them a partisan advantage that may save their party from the consequences of the canal steal and other shortcomings and wrongdoings.

Back of Gov. Black's scheme for State supervision of elections lies Republican wrath at the loss of the patronage of the New York police department and a determination to provide places for party heaters at any cost. Keeping this in mind the New York Tribune says:

There is an impressive illustration under the public eye at this moment of the melancholy operation of the patronage system, and the governor must be at least as attentive and disinterested an observer of it as any other citizen. This whole canal business has been a riot of patronage, which was expected to be of great benefit politically to those who controlled it and through them to the Republican party. Does anybody, contemplating the history of the canal improvement, now really think that the Republican party is stronger because of the interests which Mr. Aldridge has been diligently taking care of during the last two years? In our judgment the party has had just about as much patronage as it can stand up under.

Hargrave Very Critically Ill.

John L. Wiggins received a telegram this afternoon, that her sister, Anne Groo Hargrave, wife of John Hargrave, is dangerously ill in Virginia, and not expected to live.

TALKING OF PEACE!

Spain Anxious to Have the Powers Help Make Terms.

MALARIAL FEVER!

One-Half the Spanish Prisoners on the Harvard Sick.

Spanish People Now Willing to Have the Powers Try For Peace.

MADRID, July 15.—Peace sentiment is increasing. The general public takes a favorable view of the suggestion that the powers should attempt the re-establishment of peace, but it is said, in spite of current reports, that France has not taken the initiative.

MANY SICK SPANIARDS.

Half of the 800 Prisoners on the Harvard Ill With Malarial Fever.

PORTSMOUTH, July 15.—An inspection of the cruiser Harvard which reached here this morning, disclosed the fact that nearly half of the 800 Spanish prisoners on board are ill.

Six Spaniards died on the voyage to Portsmouth, another death occurred this forenoon after the cruiser reached this port, and three patients are not expected to live until night. There are eighty serious cases on board. The patients are said to be victims of malarial fever from which disease those who died suffered.

FIRST STEP TOWARD PEACE.

Constitutional Rights Suspended in Spain as a Precautionary Measure.

MADRID, July 15.—The Official Gazette, to-day, publishes a royal decree temporarily suspending throughout Spain the rights of individuals as guaranteed by the constitution. The decree adds that the government will render an account to Parliament of the use it makes of this measure.

The publication of the decree is generally accepted as being convincing proof that Spain is now ready to sue for peace, and that negotiations to that effect are now actually in progress. The government wishes to have full power to suppress any evidences of discontent or rebellion whenever they appear.

The Carlists are furious, and are sure to create trouble.

OVERTURES FOR PEACE.

May Be Made Before Sunday—France as a Mediator.

MADRID, July 15.—One of the ministers expressed the conviction to-day that official overtures for peace will be made before Sunday, and there is reason to believe that France has offered her services to Spain, and that Spain has drawn up conditions for peace which she will offer as a basis for negotiations.

Premier Sagasta is quoted as saying that Spain wants peace, but it must be an honorable peace, such as Spain deserves. Continuing, the Premier is said to have remarked: "The army is anxious to resist to the last, but the government cannot consent to such a useless sacrifice."

TO LEAVE CAMP BLACK.

Recruits for the 71st Regiment To Go to Tampa To-Morrow.

CAMP BLACK, HEMPSTEAD, L. I., July 15.—This promises to be the last day for the recruits for the 71st Regiment, New York Volunteers, will spend here. It is announced that 307 men will break camp to-morrow and start for Tampa.

It is not believed now that any more regiments will arrive in Camp Black this week. Lieut. Weigle, acting commander, has, however, everything in readiness for the 201st, 202d and 203d Regiments, to be mobilized under the second call.

"NAY, NAY PAULINE."

A Spanish Minister's Idea of Terms on Which Peace May Be Arranged.

MADRID, July 15.—The Minister of War is quoted as declaring that he thought peace might be arranged on the following terms: The United States and Spain to agree to let Cubans decide by a plebiscite whether they desire independence or autonomy under the sovereignty of Spain, the two governments to agree to abide by results of plebiscite; in the event of the Cubans voting for independence the United States to allow Spain nine months in which to withdraw her army gradually and dignifiedly from Cuba.

THE FORCE BILL.

A Tent Vote on the Measure in the Assembly.

ALBANY, July 15.—The Assembly at 11 o'clock, by a vote of 77 to 63, suspended its rules so that the metropolitan district election bill could be considered on its final passage immediately. The vote is a test of the strength of the majority in favor of the measure and insures its passage later in the day.

NO PEACE NEGOTIATIONS.

The Report That They Have Been Opened Denied by Secretary Day.

WASHINGTON, July 15.—It is authoritatively stated by Secretary Day that there is no truth in the published report that peace negotiations have been opened at Washington, led by Sir Julian Pauncefote, assisted by the Russian ambassador, the Japanese minister and other foreign diplomats.

THE YELLOW FEVER OUTBREAK.

WASHINGTON, July 15.—The War Department has posted a dispatch from Asst. Adj. Gen. Greenleaf of the general staff as follows:

SIBONEY, July 15.—Only twenty-three new cases of yellow fever and three deaths reported within the past 24 hours. The type of the disease is mild. The camps will be moved whenever practicable. They have taken vigorous sanitary precautions to prevent the spread of the disease.

A PANIC IN SAN JUAN.

ST. THOMAS, July 15.—Advises from San Juan, Porto Rico, show that the inhabitants of that place are greatly alarmed. They expect to be attacked by the Americans to-day. The terrified people are flying into the interior, and it is said the city and suburbs are practically deserted.

A PANIC STRICKEN CITY.

Citizens of Barcelona Fear Bombardment by American Fleet.

LONDON, July 15.—It is announced in a special dispatch from Barcelona, this afternoon, that the inhabitants of that city are panic stricken. They believe the Americans will select Barcelona as the first point to bombard.

The local banks are removing their specie to the country. Merchants are sending their goods to places of safety and citizens are leaving.

The Governor has informed the people that they cannot expect help from the government.

THE STATE SENATE'S PROCEEDINGS.

ALBANY, July 15.—In the Senate, to-day, Senator Lexow, from the Judiciary Committee, reported with some minor amendments the bill to provide for the taking of the soldiers' vote.

Senator Lexow also reported the bill concerning the nomination of inspectors of election, but Senator Cantor objected to its advancement. A recess was then taken.

RAN INTO A FLOCK OF SHEEP.

An Incident of the First Regiment's Trip Across the Continent.

In a letter to his brother Harry, Robert Terhune, of Company I, says that while their train was going through a deep cut in Wyoming at the rate of fifty miles an hour, it struck a flock of 1,500 sheep. The train plowed through them as it would through a light snow bank and killed over 200 of them. When the train stopped there were eleven carcasses on the cowcatcher.

He also said that when the train stopped in Ogden City he saw and spoke with Sidney Evans, formerly a resident of this city where he is engaged in the undertaking business.

CARLISTS PLANNING AN UPRISING.

PARIS, July 15.—A Madrid dispatch to the Temps says the Carlists are preparing to rise in the northern provinces of Spain.

PRESIDENT HOPES FOR PEACE.

WASHINGTON, July 15.—President McKinley, to-day, in speaking of the fall of Santiago, said: "I hope for peace now."

MORE SPANISH PRISONERS.

PORTSMOUTH, N. H., July 15.—The U. S. steamship Harvard arrived here, this morning, with 800 Spanish prisoners on board.

Home From the South.

Clifford Dolson, son of R. H. Dolson, now located in Jacksonville, Florida, arrived in this city, last evening, on a visit to his parents. "Cliff" sailed up the coast from Jacksonville to Philadelphia in a brig, the journey consuming a little more than eleven days. As a result of it he is as sunburned as if he had been with the army in Cuba.

ON THE TIP OF THE TONGUE.

Stephen Crane, who lies ill of yellow fever on a ship at Santiago, had a vivid story of the battle of Santiago in Thursday's New York World. In the excitement of that battle, seen by the correspondent from a dangerous location, his thoughts doubtless turned back to his friends here, and he worked in the following later, when the story was written:

At about 2,500 yards in front of Grimes's position on El Paso across the gentle green hills of San Juan, dotted not too plentifully with trees—hills that resembled the sloping orchards of Orange county in summer. Here and there were houses, built evidently as summer villas, but now loop-holed.

The newboys who infest the Erie station, each morning, powering trainmen and persons who are there to board the Mountain Express, are very popular with New Yorkers whose families are stopping "up the road," and who commute between those points and New York. They cannot secure New York papers until they reach this city, and there is a grand rush for them the instant the train stops. Some hurry to the platform, while others extend heads and arms from windows.

When he is well surrounded by a crowd of purchasers the newboy is coolest, though apparently greatly excited. He accepts all the ten-cent pieces extended, and then begins a fruitless search for some particular paper. The customer who is first supplied becomes tired of waiting for his change, and the boy ignores him from the instant his back is turned.

This morning a newboy with a conscience sold a *Sun* to a man and received a nickel. The passenger pulled down the shade of the window, not expecting any change, and the boy became very nervous.

"Mister," he said, in a scarcely audible voice. There was no answer, and the boy called a little louder:

"Mister!"

No answer, and the boy looked around, and thinking that no one had witnessed the incident walked away, half-pleased, yet half-ashamed at having the man's change, which had doubtless been intended as a gift.

There was a man in this city, Thursday, who was especially pleased at the result of Shafter's Santiago campaign. He was Capt. James Krom, who fought in the war with the Fifth New York Artillery, and who now resides on the Overlook Farm, on the mountain drive above New Vernon. He said to an *Argus* reporter:

"I know Shafter well. His father owned a farm near Galesburg, Kalazoo county, Michigan, right across the road from where my father, Andrew Krom, lived. I've debated and hunted with the now General Shafter many a time, and I received a letter from him when he was at Angel Island, about a year ago. I became acquainted with him in 1849, and I always found him a man of action. He was great in athletics—a runner and a wrestler. He was fond of running horses.

"He married in Kalazoo county, and his wife and one daughter are now living in Arizona.

"Shafter was in the late war, of course, having enlisted as a lieutenant in the Seventh Michigan Volunteers. He's the man to boss things in Cuba, and don't you forget it."

Why There Was No Balloon Ascension.

Last night. The wind was too strong at Midway Park, Thursday night, and the balloon ascension was given up. The balloon was nearly filled with hot air when a gust of wind caught it and whirled it on one of the supporting poles, puncturing a large hole, through which the air escaped, and the trip was given up.

The crowd remained to take in the vaudeville show.

The Huckleberry Crop.

It is so dry on the mountains that huckleberries, instead of ripening, shrivel up on the bushes. Even the most skillful pickers cannot get many quarts in a day, and as a consequence prices rule high, and shipments to New York and other markets are light.

Broke His Arm for the Fourth Time.

From the Monticello Watchman.

Charles Price, the quartermaster of this town, broke his arm, last week, while at work. Mr. Price's misfortunes seem to run in the same line, for this is the fourth time he has suffered from a broken arm, the first being in infancy.

Have Become Down-East Fishermen.

From the Ellenville Press.

Morris Schultz, Ed. White Jr., Herbert Townsend and Edward Budd have gone to Buzzards Bay, where they will engage in the business of fishing. Some of them have been there and done well before.

Tannery Shut Down For Repairs.

The tannery closed down, Thursday night, for ten days. Machinery will be repaired and a general inspection will be given everything, preparatory to another year's active business.

Stronger and Better.

"Our little daughter was sick and was very thin in flesh. We gave her Hood's Sarsaparilla and it soon made her strong and better. My husband was suffering from a disordered stomach but after a few bottles of Hood's Sarsaparilla he was relieved." Mrs. M. MAX, 1000 Broadway street, Brooklyn, N. Y.

HOOD'S PILLS are the favorite family remedy to take, easy to operate.

MISSIONARY MEETING.

The Society of the First Presbyterian Church Meets With Mrs. Judson.

The members of the Missionary Society of the First Presbyterian Church and their guest, Miss Ufford, of Albamaria, N. C., were entertained by Mrs. L. T. Judson at the State Hospital, Thursday afternoon. It was the monthly meeting and was held in the pleasant library, which was prettily decorated with flowers.

The afternoon was cool and pleasant and the sixty-seven ladies who met to hear Miss Ufford felt fully repaid.

After the usual opening exercises, the solo, "The New Kingdom," was sung by Mrs. Clarence Sweeney. The speaker was then introduced by Mrs. Dunning, president of the society.

Miss Ufford, who has a school among the Mountain Whites at Albamaria, N. C., talked for some time, describing her work and the people with whom she is working. A pleasant voice and a personal experience and knowledge of the people made Miss Ufford's remarks especially enjoyable. As the ladies are particularly interested in Miss Ufford's school, they were very glad of this opportunity of meeting her. At the close of the address a hearty vote of thanks was extended to Miss Ufford.

Miss Belle Bradner sang sweetly the solo, "Nearer my God to Thee." "The Road to Heaven," a very sweet and touching little poem, was recited by Mrs. Robinson in a way that brought tears to many eyes.

The meeting closed with a hymn, after which refreshments were served and a pleasant social time followed.

STORY OF A BRIDAL GOWN.

Went to the Battle at Manila Instead of to the Bride at Paterson.

Miss Mary Butler, who was recently married at her parents' home, in Paterson, to Bancroft Gherardi, son of Rear Admiral Gherardi, did not wear the wedding gown of white brocade silk that she had expected to wear on that occasion.

Several months ago her brother, an ensign on the flagship Olympia, of Admiral Dewey's fleet, wrote that he would send her the material for her wedding dress, and he ordered twenty yards of the most beautiful white brocade that could be found in Shanghai. The merchant, however, misunderstood the shipping directions, and instead of forwarding the silk to Paterson sent it to Ensign Butler on the Olympia, and it was delivered on shipboard on the very day that the squadron sailed from Chinese waters and had to be taken to Manila, thus going to a battle instead of to a bride.

The mystery of the missing silk was cleared up a few days ago, when a letter arrived explaining the delay, and a little later came the belated wedding dress.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

A little life may be sacrificed to an hour's delay. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

Win your battles against disease by acting promptly. One minute Cough Cure produces immediate results. When taken early it prevents consumption. And in later stages it furnishes prompt relief. W. D. Olney.

PUBLIC VOICE.

Dr. Wilson Don't Like the Health Board's Methods of "Lemure."

Editors *Argus*:—In the different newspapers of this city, a few days ago, there appeared a report of the meeting of the Board of Health, recently held, at which I was censured for alleged violation of one of its rules. The first and only notification that I received of this action was when I read it in the public prints.

I now wish to ask by what right or principle of equity does the Board of Health make this charge, reach a verdict and pass sentence of condemnation without first giving the accused person a hearing and an opportunity for explanation? In the light of existing facts, accessible to the public, I regard it thoroughly unjust and little less than slanderous, and so far from accepting the censure, I resent the action of the Board as being high handed, precipitate and uncalled for.

FILLED LAMPS WITH GASOLINE.

The Carelessness of a Colored Man Nearly Caused a Fire at Midway Park Restaurant.

The colored porter employed by Jacob Gunther at Midway Park is out of a job. He filled five large Rochester lamps at the park with gasoline, Thursday night, and when the first one was lighted in the restaurant there was a blaze which threatened to fire the place.

Wm. Remsen, who is in charge, carried the lamp out and threw it on the sand and walk, and Mr. Gunther, who had jumped over the counter at the canteen and made a rush to the scene at the first cry of fire, picked it up and threw it in the Walkill river.

The rest of the lamps were emptied and well cleaned before they were put into service.

AT THE DRIVING PARK.

Some Interesting Trials of Speed, This Morning.

This morning was the regular time for speeding at Campbell track, and as usual all the local talent was out. There is now great rivalry among certain horsemen in town, and sport at the track is always interesting.

George Gillet's Peaceful and W. D. Stratton's Pie Lijero were the best ones out, this morning. Peaceful went a mile in 2:25, the last quarter in thirty-five seconds, while the watch stopped on Pie Lijero in 2:29.

Thomas Watta's Simons colt, Joe, and Thomas Hennessey's three-year-old Polonus colt tried conclusions, Joe winning two out of three heats in good time.

Ben. Reynolds' Tempest and Mr. Watta's mare Laura also circled the track together, Tempest winning in 2:33. Dr. Douglas's bay colt and Dr. Miller's black colt both showed great improvement.

Ben. Williams's Madara showed good speed. George Corwin was there with "the Sleeper" from Old Homestead Farm. The Sleeper has some mystery surrounding her and the local horsemen are very anxious to see her go.

IN THE RAILROAD WORLD.

—Russell Sage denies emphatically that negotiations are pending for the sale of the Foughkeepsie and Eastern Railroad to the New Paltz and Walkill Valley Electric Railroad Company.

—There are no less than four railroad projects under way in Delaware county, according to the *Delhi Gazette*, and it looks as though some of them would be put through.

MAKE IT PUBLIC.

Make it public. Tell the people about it. Gratitude promotes publicity. Grateful citizens' talk. They tell their neighbors—tell their friends.

Everybody should know about the little conqueror.

Of Doan's Kidney Pills.

Our citizens are making it public. Mr. Emmit Barton of the firm of Harfor & Barton, says:—"My back was never free from pain, and a cold or any lifting made it more severe. Urinary troubles set in and were a great source of annoyance, compelling me to get up three or four times at night. I tried everything for my trouble and got little or no relief; finally I heard about Doan's Kidney Pills and procured a box at J. E. Mills drug store. I never saw anything work more quickly. I took in all two boxes and had no further use for Doan's Kidney Pills for the reason that I did not need them. My back did not ache, the urinary trouble was regulated, I would enjoy a good night's rest, in fact I was rid of all the symptoms of kidney disease which belunged to me for 20 years."

Doan's Kidney Pills are for sale by all dealers, price 50 cents per box. Sent by mail on receipt of price. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States.
